Digital Product Management: Modern Fundamentals

Introduction to User Experience Principles and Processes

Marcel Steffen

AI Product Builder | Product Owner with software development knowledge

Donaueschingen, Baden-Württemberg, Deutschland

Zusammenfassung

Product Owner with experience in AI platforms, digital products, mobile applications, and cloud services. Strong background in product strategy, roadmap development, stakeholder management, and agile collaboration with senior cross-functional engineering teams. I combine business & technical understanding from frontend development, and extensive experience in automotive and platform-based environments.
